

## WHAT IS CAMBRIDGE?

- The world's largest provider of K-12 international education programs
- A global model for academic excellence through rigorous standards and high expectations
- An educational leader in 160 countries, with programs in over 9,000 schools
- Part of England's renowned University of Cambridge

### CAMBRIDGE SECONDARY 1:

The Cambridge Secondary 1 Program is an innovative and accelerated method of academic study offered solely through Cambridge International Examinations.

- Challenges students to excel in Mathematics, Science, and Languages
- Assesses student achievement based on international benchmarks
- Incorporates a global vision of learning with sensitivity to cultural differences
- Encourages critical thinking and the development of problem solving skills
- Provides access to high school courses in mathematics and science in grades 7 and/or 8
- Prepares students for accelerated academic programs in high school

### CAMBRIDGE SECONDARY 1 PROGRAM: GLADES MIDDLE

Glades Middle School (GMS), "Home of the Gators," is proud to offer the internationally-recognized Cambridge Program.

The Cambridge Secondary 1 curriculum provides a strong foundation in mathematics through real-world applications. Students learn problem solving skills that equip them for success in higher level math. Science exploration through the Cambridge curriculum is grounded in student-centered, hands-on activities such as lab experiments. In language arts, students develop communication skills that enhance their readiness to succeed in all content areas, and they participate in project-based learning while working in a collaborative environment. The Cambridge vision is that all students "become confident, responsible, reflective, innovative and engaged" learners.

There are many opportunities within Miami-Dade County Public Schools to continue the Cambridge curriculum that culminates with the AICE Diploma Program at the senior high level.

Glades Middle School provides a comprehensive and inclusive learning environment, seeks to empower

**"Cambridge Checkpoint tests, together with the progress checks, give schools, teachers, parents and pupils an educational tool to monitor the educational progress of pupils in multiple subjects."**

students with a quality education, and promotes the development of lifelong learning skills. GMS offers Advanced and Gifted courses and the opportunity to earn high school credit in Mathematics, Science, and Spanish. At GMS, students benefit from a full middle school experience; an interscholastic sports program is enjoyed by both girls and boys, and a broad range of electives encourages the exploration of Art, Wind Symphony, Jazz Band, Dance, Technology, Culinary Arts "Gourmet Gators," as well as Fashion and Interior Design.
